##### DISTRICT ROAD FUND.

NOTIFICATION.—No. 258.

The 30th July 1888.

THE subjoined accounts and reports of the Road Cess Committees of the districts of Chittagong, Noakholly, Tipperah, and Chittagong Hill Tracts for the half-year ending 31st March 1887, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

W. B. BESTIC,

*Under-Secy. to the Govt. of Bengal, P. W. Dept.*

No. 139, dated Chittagong, the 19th May 1887.

FROM—A. MANSON, Esq., Chairman of the District Board, Chittagong.  
TO—The Commissioner of the Chittagong Division.

I HAVE the honour to submit the report on the working of the District Road Fund Committee for the six months ending with 31st March 1887. The Local Self-Government Act having been introduced into this district from 1st April 1887, the Road Cess Committee have ceased to exist from that date.

I as Collector was *ex-officio* Chairman during the time, and Mr. Douglas, an *ex-officio* member, was the Vice-Chairman. The Committee consisted of 21 members, and some of them took interest in the work.

There was a Branch Committee at Cox's Bazar, who were entrusted with the management of village roads of that part of the district.

*Planting trees.*—No new plants have been planted during the period; the old plants have been maintained.

The following will show the nature of the work done on each road during the year:—

*No. 1, Robertgunge road, II class.*—Surface repairs and jungle cutting have been executed, and an iron bridge has been substituted for the old wooden bridge No. 3. The road is fit for carts.

*No. 2, Mahajan's Hat road.*—It is a II class road. It has received surface repairs in the 1st, 2nd, and 3rd miles. The 4th and 5th miles are being repaired. The bridge No. 1 is in fair order. The inspection bungalow at Zoragunge is also being repaired.

No. 3, *Captain Leake's road*.—A III class road, 7 miles in length. It commences from 2nd mile of the Mahajan's Hât road and ends at Sopur's Ghât on the Feni river, where it meets a road in Ohagalnaya thana. It is doubtful whether Mr. Leake was a Captain: he was a well-known officer in the Company's days. Surface repairs have nearly been completed. An iron bridle-path bridge has been put over gap No. 2. Mat bridges over other gaps have also been put up.

No. 4, *Sundeeep Ferry Ghât road*.—It is a III class road, 3 miles in length. It commences from north of Kumira station in the 16th mile of the Dacca Trunk road, and ends at Sundeeep Ferry Ghât. It has recently been brought on the list. Surface repairs are being done. Two iron bridges will be put up on arrival of iron from England.

No. 5, *Moishkhali Strand road*.—A II class road, 4½ miles in length from municipal boundary near Mr. Deterum's godown to the end of Haliashohor road. The work, which has been entrusted to Abdul Maloom, a member of the late Road Cess Committee, will be soon taken in hand. It is, however, in fair order.

No. 6, *Moishkhali Towing Path*.—It is a II class road and 4 miles in length. Surface repairs have been executed to this road, and the bridges are in fair order.

No. 7, *Haliashohor road*.—It is a II class road and 3 miles in length. Surface repairs to this road and petty repairs to its bridges have been completed. The road is in fair order.

No. 8, *Kattoli road*.—It is a II class road. It begins in the 2nd mile of Dacca Trunk road and goes up to the 2nd mile of the Moishkhali Towing Path, running over a distance of 2 miles. It has received surface repairs and is in good order.

No. 9, *Tipperah Pass road*.—It is II class road. Surface repairs to the road have been finished and jungle cutting completed. The road is in fair order.

No. 10, *Flora Pass road*.—It is a II class road and 2 miles in length. Petty repairs to surface and bridges are completed.

No. 11, *Nussirabad road*.—A II class road, 3½ miles in length. Petty repairs to its surface are being done. The road is fit for carts.

No. 12, *Bucolia road*.—It is a II class road. It is in fair order. The work of this road has been entrusted to Baboo Choitonya Charan Dutta, a member of the Committee.

No. 13, *Kalarghât road*.—It is a II class road and 5 miles in length. Surface repairs to the road have been nearly finished. Petty repairs to bridges are in progress.

No. 14, *Ramghur road, I section*.—It commences from the northern boundary of the municipality north of Bibi's Hât and ends at Hathazari on the 12th mile towards Ramghur. It is a II class road and 9 miles in length. Surface repairs have nearly been finished. The road is in fair order and fit for carts. The bungalow repairs will be soon taken in hand.

No. 15, *Ramghur road, II section*.—From 13th mile at Hathazari to Dhroong nullah north of Futtickcherry police-station in the 26th mile. This is a II class road and 14 miles in length. The surface of the road has been repaired with 3" of earth. Necessary repairs to all the wooden bridges have also been executed. There are two inspection bungalows—one at Kotor Hât and other at Futtickcherry. The repairs to the former will be soon taken up, and that of the latter has been completed. The slopes at the crossings of Halda and Dhroong have been eased for carts. The gap No. 69, near the first crossing of Dhroong, has been filled up.

No. 16, *Ramghur road, III section*.—It is a II class road and 24 miles in length. It commences from Dhroong nullah near Futtickcherry police-station and terminates at Feni river at Ramghur. Slight surface repair has been done to this road. Mat bridges have been put over gaps north of Kajee's Hât. The crest of the road in most places is below highest flood level, and the road becomes impassable during high flood of Halda. The two inspection bungalows—one at Kajee's Hât and the other at Naran's Hât—have received petty repairs. The slopes at crossings of nullahs have been maintained. Jungle clearing has been done in the 34th to 37th miles. Two dilapidated timber bridges will be replaced by Westwood and Bailey's trough plates on arrival from England.

No. 17, *Sagarkota Dhatla*.—It is a IV class road and 11 miles in length. It commences from Hathazari on the 12th mile of the Ramghur road and goes through the hills to Ghoramara on the 15th mile of the Dacca Trunk road, forming one link in the line from Sundeeep Ferry up to Rangamati in the Hill Tracts. The road has been repaired with 91,000 cubic feet of earthwork in each mile. Jungles have been cleared, and sankoes have been maintained. The road is only a bridle-path, but is much used in bringing cattle and goods through to Hathazari market.

No. 18, *Hill Tracts road, I section*.—It is a II class road and 5 miles in length from Hathazari, i.e., from the end of 12th mile Ramghur road to a point about a mile east of Ronjan police-station. The surface of the road has received petty repairs. Gaps Nos. 6 and 14 have been shortened, and gap No. 9 has been filled up. The bridge No. 4 has been thoroughly repaired. There were longitudinal planking in bridges Nos. 6, 7, 10, 14, and 19. All these have been thoroughly repaired with long beams and cross planking. For dilapidated wooden bridge No. 14, a ten-feet trough plate has been substituted. The causeways constructed on the sides of gaps Nos. 6 and 7, at the suggestion of the Chairman, District Road Committee, have stood very well during the last rains. The fencing of all the young trees planted on the roadside have been renewed. It is very desirable to open up the road for carts to Ronjan, which is a place of increasing importance.

No. 19, *Hill Tracts road, II section*.—It is a II class road from Ronjan to the western boundary of Hill Tracts. The surface of the road in the first 8½ miles and the inspection bungalow at Ranga have received petty repairs. Bamboo mat bridges have been renewed. The road is only a bridle-path: the post is carried this way to Rangamati, and the Public

Works Department were to make the line from Rangamati down to meet this road, but the subject appears to have dropped.

**No. 20, Fenua road.**—It is a II class road, 4½ miles in length. The surface of the road has been repaired with a coating of 3" earthwork. Wooden bridges Nos. 4, 12, and 13 have been replaced with iron ones. Jungle has been cleared from sides of road. The road is fit for carts.

**No. 21, Issapore road.**—A II class road, 12 miles in length. It commences from 2nd mile of th Fenua road and ends at Roujan on the 8th mile of the Hill Tracts road. The surface of the road has received 4,000 cubic feet of earthwork in each mile. An iron bridge has been constructed over Kaotia nullah. Bamboo bridges have been put over all other gaps. **No. 27, Rangonia road.**—It is a III class road, 8½ miles in length. It commences from Karnafulli river at the mouth of Ichamati khal to Rancee's Hât. The materials are being collected for repairing bridges. The inspection bungalow has been repaired. The road is in fair order.

**No. 31, Poroikora road.**—It is a II class road, extending over 12 miles from 3rd mile of Chandpore road to 2nd mile of Rampore road near Sanghoo river. It has received petty repairs between 1st and 3rd miles. The work to the other portion of the road is in progress.

**No. 32, Pateya-Anwara road.**—This is a III class road and 10 miles in length. It joins Pateya with Anwara out-post near 10th mile of the Chandpore road. The surface of the road and its bridges have been repaired. Bamboo-mat bridges and channel iron bridges have been put over the gaps. This road runs through thickly populated villages, and is very circuitous, which is an advantage, as it is wanted for fuel traffic amongst the villages.

**No. 33, Boalkhali Towing Path.**—It is a II class road. It runs over a distance of 10 miles from Indaripole to Arrakan road, 2nd mile. It has been raised in places, and received surface repairs where necessary. Five iron bridges have been put up between 4th and 7th miles. **No. 38, Arrakan road, I Section.**—It is a II class road and 21 miles in length. It runs from the bank of the Karnafulli near the mouth of Boalkhali, and goes up to Sanghoo at Dohazari. This road has been repaired by Mr. Higgins from the east bank of river Karnafulli to Shoforali Munshee's Hât, about  $1\frac{1}{2}$  miles, and partly in the 9th and 12th miles. Iron bridges have been substituted in place of dilapidated timber bridges Nos. 6, 15, 35, and 36. A timber and a tattiee bridge have been put over gaps Nos. 23 and 43 respectively. The Indaripole bridge has been thoroughly repaired with rolled joists, piles, and beams, and has been raised at the two abutments, making the bridge flat instead of round topped as it was before. The whole line of the road and its bridges are passable for carts.

**No. 39, Arrakan road, II Section.**—It is a III class road and 30 miles in length from Sanghoo river at Dohazari Ghât to Matamohori river at Sekalghat in Chokona. It has received surface repairs in places between the 38th and 52nd miles. The approaches of the streams within the hilly portions of the road having been eased to a gradient of 1 in 20, the road is passable for carts. Bamboo foot bridges and mat bridges have been placed over the gaps between 36th and 52nd miles. The whole line of the road and its bridges are in fair order.

**No. 40, Satkania road.**—It is a II class road and three miles in length. It runs from Keochia to Dolu river at Thanna ghât. The repair of the road has been undertaken by Baboo Gopi Mohan Ghose, khas tehildar of Satkania. The road has been widened in places, and in other portions the work is in progress. One iron bridge has been constructed over gap No. 4. The iron work for bridge over gap No. 3 has been taken to the site and the work will be taken in hand shortly.

**No. 41, Rampore road.**—It is a III class road and 20 miles in length. It commences from Chandpore on the 15th mile Chandpore road near Sanghoo river and ends at Chunati on the 38th mile Arrakan road. The repair of this road has also been undertaken by the khas tehildar of Satkania. About three miles of the road south of Dewa's Diggy have been repaired. The road is very narrow and circuitous, but it forms a very important line, it passes through all the villages west of the Dolu river and the tehsil outcherry at Deokediggy.

**No. 42, Jaldi road.**—It is an old military road. It runs over a distance of 28 miles from Shadhanpore on the 18th mile Chandpore road to 52nd mile Arrakan road (near Chokoria) and is of the III class. About five miles of road have been constructed in places between Banigram and Pinsury. Surface repairs to the above portion of the road have been commenced, and jungle clearing has been done between Banigram and Jaldi outpost.

**No. 43, Arrakan road, III Section.**—From Matamohori at Sekalghat in Chokoria to Salidhong in Arrakan. It is a III class road and 37 miles in length, the last few miles are in the Hill Tracts and not in this district. The road has been opened up to Garjonia. Surface of the road from Matamohori on the 53rd mile to the 76th mile has been repaired at a cost of Rs. 8 per mile, and jungle clearing, 60 feet in width, has been executed. From Matamohori to Dulahazara all the gaps have been bridged with bamboo mats, 10 feet wide, making the road fit for carts, with the exception of Fashikhalli and Dulahazara Surrah and two other small shallow gaps, the approaches of which have been eased to enable the carts to pass freely. One hundred and fifty running feet of foot bridges of logs of trees have been put over three gaps. Four feet wide mat bridges have been put over four gaps with soft bed. Two inspection bungalows on this road, one at Garjonia and the other at Edgar, have also been thoroughly repaired. This road is used chiefly by the coolies going to Arrakan. It passes through thick jungles infested with wild beasts.

**No. 44, Ramoo Branch road, I Section.**—From Dulahazara on the 60th mile of the Arrakan road to Ramoo. It is a III class road and 12 miles in length. It has been repaired with about four lakhs of cubic feet of earthwork in places,  $2\frac{1}{2}$  lakhs of cubic feet of earthwork in hills, and one lakh in Dheha (marshy places). Jungles of the road have been cleared, and bamboo mat bridges have been put over almost all the gaps. The road has been fully opened out in this year and made fit for riding, and carts have been over it in the cold season. Slopes of big streams which have no bridges over them have been eased at easy gradient. About half a mile of new road has been made this year through a marshy plot of ground, which will be turfed during rains. The two inspection bungalows at Dulahazara and at Edgong have been repaired. Three feet wide trough plate bridges were put over some of

the gaps last year. If Rs. 10,000 be spent in bridging this road, there will be a great saving in its maintenance, and the road will be opened for cart traffic all the year round. It is the principal thoroughfare for Cox's Bazar sub-division, and the Branch Committee have laid out a very useful new line from Idgaon on this road to Cox's Bazar itself.

No. 45, *Ramoo Branch road, II section*.—It is a III class road, 26 miles in length from Ramoo to Ukhyaghat. There is no regular road in this line, but only a track for dāk runners and foot traffic. Jungles of the line have been cleared. Sankoes have been placed over streams and nullahs, and their slopes have been dressed. One inspection bungalow at Kunkahat has received necessary repairs. A straight and better road can be made from the 86th mile at Daria Diggy to Ukhis outpost. One timber bridge, 120 feet long and 4 feet wide, is being constructed on the 80th mile. This road requires special attention. There is no good road for people to travel, and the foot track becomes very difficult for travelling during the rains. If a cart road is made, it will benefit the people much, as the people of Palong will be able to bring their things for sale to Ramoo during the rains, as boats do not go to Kunkahat during the rains owing to danger of the sea.

No. 46, *Meetasurah road*.—It runs from 77th mile of the Ramoo Branch road at Meetasurah to a tidal creek a mile off to the west. It is a II class road, and about 1½ miles in length. This road has been repaired with 3 inches of earthwork on its surface, and its jungle has been cleared.

No. 47, *Cox's Bazar road*.—From Cox's Bazar to Ramoo, 9 miles in length. It is a II class road. First mile of the road is within the Cox's Bazar Municipality, and the remaining 8 miles are under the Committee. It has been repaired with about 5 lakhs cubic feet of earthwork, which will be turfed during the rains where necessary. The two inspection bungalows, one at Cox's Bazar and the other at Ramoo, have also been repaired.

No. 48, *Garjonia Dāk line*.—From Ramoo to Garjonia. It is a III class road and 8 miles in length. The sankoes on this line of road have been replaced by 4 feet wide mat bridges. Slopes of the gaps have also been eased and jungle cleared. A foot-bridge of log of trees 60 feet long has been put over Ukhiaghora. The surface of the road wants repairs. There are three ferry ghāts on the crossings of Bagkhali hāt. Small dugouts have been kept in the two, but none in the third.

No. 49, *Teeknaf road*.—It is a III class road running from Nhilla to Teeknaf, a distance of 12 miles. There is no regular road, but it is a mere track. Foot-bridges over all the hill streams and tidal creeks, about 50 in number, have been put up and maintained, and jungle from the line have been cleared. The two inspection bungalows, one at Nhilla and the other at Teeknaf, have received petty repairs. A four-feet wide road should at least be made. A tank is being excavated at the Teeknaf sub-tehsil cutcherry from khas mehal funds.

District Engineer's office bungalow and out-houses are being repaired.

*Road Cross Office building*.—The work of the building was recommenced in the beginning of February last. The superstructure of the whole building has nearly been completed up to the spring level. Iron and woodwork have been collected at site. The work is at a standstill for want of bricks which the contractor is preparing.

*Purangor road*.—It is a village road. It commences from the junction of the 22nd mile. Arrakan road near Dohazari, and ends at the forest toll-station at Sunghoo, passing through several villages and hills. The road has been nearly finished, and bamboo foot-bridges put over gaps and hill streams.

One work-shed has been kept in the head-quarters for fitting up iron bridges, the materials of which are procured from Europe. After the bridges are fitted up here by local labour under supervision of two fitters, who have received their training in the Calcutta Government Workshop they are despatched and fixed in their respective sites.

Roads and canals are very expensive to be maintained in this district; the former are so on account of the numerous hill streams that are crossed by them, and the latter are nearly all doubly tidal, necessitating silt clearance at least once in every three years.

The wooden bridges that exist on the district roads are being replaced with iron. In course of time there will be less expenditure in maintenance of bridges, as the wooden structures will disappear.

It will be a great improvement if some of the ugly bends of navigable canals are straightened. The Halda, for example, winds its course in such a manner that a straight cut of, say, 50 feet in places, will do away with two miles of circuitous navigation. The bends retard the flow of flood water and cause mischief to standing crops and homesteads by overflowing the country.

The canals in the district are more used for the transport of merchandise than the roads, as the cost of carriage by water is cheaper than that by road.

## NOTES.

## District Engineer's Form No. 9.

This return is kept as a record of the disposal, mile by mile, of metal collected for consolidation, being posted from the details in Form No. 10. This form will not be required in cases when the contract is let in a lump sum for supplying the metal and laying it down also.

2. In dealing with road metal it is absolutely essential to keep the numerical account of each mile separate. The metal should not be transported from one place to another, but must be on the spot where it is originally deposited; and where metal is being collected on estimate, it is essential for proper check that the mile in which the metal is being collected should be specified; otherwise it is impossible to say that the metal is being provided within the rate allowed by the estimate.

3. A very important and large part of the business of the District Engineer of a district consisting of finished roads is to buy and lay down metal, and his attention may, therefore, be properly very much directed to watching and recording the results of those two operations.

KAILAS CHANDRA DAS,  
Vice-Chairman.

No. 163DB -VI-3, dated Noakholly, the 27th June 1887.

From—ANUNDORAM BOROOAH, Esq., (Chairman, District Board, Noakholly,  
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit herewith the accounts of the District Road Cess Committee of Noakholly for the half-year ending 31st March 1887, together with the following report:

2. There were during the half-year six ordinary meetings of the District Committee: the average attendance was 6.53, total number of members being 15.

3. There were five meetings of the Branch Committee at Fenny: the average attendance was 5.6, the total number of members being 9.

4. *Original works.*—A sum of Rs. 3,382-9-10 was spent in original works, which consisted chiefly of constructing bridges on the existing roads and paying compensation of land acquired for the Parashuram, Chagalyah and other roads. The abutments of two bridges on Sundee road, three on Hatyah road, one on Panchgassia road, one on Begum-gunge road, and one on Ramgunge road, have been completed.

5. *Repairs.*—Most of the unmetalled roads under the charge of the District Road Cess Committee were repaired during the half-year at a cost of Rs. 8,509-7-3. The damages done to the roads by the heavy rainfall of last year have been repaired. There were also petty repairs to the roads within the municipality. The existing roads and bridges under the Committee have been maintained generally in a good condition.

6. *Inspection Bungalows.*—The three inspection bungalows, the construction of which was sanctioned in 1885, were completed.

7. *Village roads.*—A sum of Rs. 360 was spent in the Sudder sub-division for the construction of village roads, on the recommendation of a sub-committee appointed to allot sums for the village roads. In the Fenny sub-division a sum of Rs. 1,079-12 was spent on the construction of village roads.

8. *Planting trees.*—The roadside trees were generally thriving. More work will be done this year.

9. *Establishment.*—There was a change in the Vice-Chairmanship during the half-year, Baboo Bhairub Chandra Das having been appointed Vice-Chairman in place of Baboo Ram Lal Sen, whose term of appointment has expired.

## EXPLANATION.

*Receipt.*—There will appear a difference of Rs. 9,021 under head of miscellaneous and grant from Government when compared with the monthly return. This is owing to the amount having been transferred from head miscellaneous to grant from Government.

*Expenditure.*—There will appear a difference of Rs. 10-8 when compared with head Stationery and Printing and Public Works Establishment. This amount was paid for publication of a notice in the *Calcutta Gazette* which is the charge under head Stationery and Printing, but was shewn in the monthly return under head Public Works Establishment.

SATIS CHUNDER BOSE,

*For Vice-Chairman.*

No. 63 D.B, dated Comillah, the 27th May 1887.

From—J. C. PRICE, Esq., Chairman, District Board, Tipperah,

To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit a brief report on the work of the District Road Committee of this district for the half-year beginning with 1st October 1886 and ending with 31st March 1887, as required by the circular of the Bengal Government in the Municipal Department No. 6 of the 29th March 1887.

2. The budget estimates sanctioned for the year 1886-87 contemplated an expenditure of Rs. 1,25,584, of which Rs. 29,126-11-11 were spent during the half-year under report. The detailed expenditure under different headings is shewn below :—

	Rs.	A.	P.
Refund	23	0	6
Original Works	4,770	0	9
Repairs	7,341	8	0
Cost of Establishment and contingencies of the Cess Office	2,976	0	8
Ditto of Committee Office	876	6	11
Ditto for Office of Accounts and Control	681	5	0
Stationery and Printing	79	2	0
Public Works Establishment	5,956	13	7
Tools and Plant	102	9	6
Toll and Ferry	345	12	9
The cost of maintaining village roads and khals by the four Branch Committees	4,656	5	3
Total	27,799	0	11
Advance	1,327	11	0
Grand Total	29,126	11	11

3. All the district and village roads are kept in good order. The excessive rainfall and unusual floods of the last year have caused great damage to some of our district roads. Especially the Brahmunbariah, Agortollah, and Chandpur roads have suffered much; in several places these roads were about a foot under water. Supplementary estimates amounting to Rs. 5,000 for raising these three roads were submitted by the District Engineer, but the Committee resolved "that the repairs as estimated originally should be executed on the Brahmunbariah, Agortollah, and Chandpur roads before additional works on them be undertaken."

4. Three-fourths of the repair works provided in the estimate, such as surface repairs, jungle-cutting, bridge repairs, &c., were completed in February and March last; but as the engineering staff was at that time in the interior engaged in measuring works, no bills could be submitted for payment before 31st March last.

5. *Bridging Mudasfergunge to Hajigunge road.*—The contractor, Baboo Revati Mohan Das, has collected materials for this big work; but owing to the want of proper supervision on the part of the contractor, progress is very slow. Of 25 bridges he could not raise the foundation of more than three bridges during the two months of January and February.

6. *Planting trees.*—The planting of trees is going on as usual; but on account of excessive heat, the transplantation of young plants has now been stopped, and postponed to a more suitable season.

7. The steam communication between Daudkandi and Goalundo, Naraingunge, and Dacca is improving. The Committee has now to pay only Rs. 51 towards the cost of a boat with equipment daily plying with passengers between Daudkandi and Shatual station.

No. 34R, dated Rangamatti, the 14th November 1887.

From—L. R. FORNES, Esq., Offg. Deputy Commissioner, Chittagong Hill Tracts,  
To—The Commissioner of the Chittagong Division.

WITH reference to your letter No. 179T—R.C., dated the 15th October 1887, I have the honour to submit herewith in duplicate the half-yearly accounts of the Road Fund Department of this district, for the half-year from 1st October 1886 to 31st March 1887, and to state that the work of maintaining all the roads, by jungle clearing to a width of 8 feet and throwing up temporary bridges, was disposed of by contract; and as far as I have been given to understand, the work was executed satisfactorily.

2. The survey of the Ruma and Rangamatti road was resumed by the Supervisor in charge of the work in the middle of December 1886. He commenced from Politye, and finished nearly 10 miles within the half-year under report.

The earth-work of the first section, i.e., from Ruma to Politye, was also taken in hand, and completed up to 6 miles with the exception of short distances at places where kodalies failed on account of the soil being very hard.

3. All the imported coolies that could be conveniently spared from the transport of provision were employed for the execution of earth-work only on the Demagri and Burkal road. The clearance of jungle having been carried out by the Lushai coolies who received advances from Government during the previous year on account of scarcity. Owing to the unfitness of the imported coolies for jungle cutting and boat work, they were employed solely on earth-cutting, and did this special form of work satisfactorily. Three miles of the road from Demagri towards the Tegga were completed during the half-year.

4. The station roads were maintained partly by imported coolies and partly by daily labour.

A. W. COSEKRAY,

*Deputy Collector in charge.*

No. 1080GM—VII-I, dated Chittagong, the 21st November 1887.

From —D. R. LYALL, Esq., Commissioner of the Chittagong Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the report on the working of the District Road Funds in the districts of this Division for the six months ending with 31st March 1887, as required by Government circular No. 6 of 29th March 1887. The district reports and accounts are submitted in original, together with a general abstract of the accounts for the whole Division.

2. An abstract of the particulars regarding the meetings of the District Road and Branch Committees in the regulation districts of this Division during the period under report is also annexed.

3. The reports and accounts of the districts were received in this office on the dates noted below:—

Chittagong ...	...	...	...	21st May	1887.
Noakholly ...	...	...	...	30th June	"
Tipperah ...	...	...	...	30th May	"
Chittagong Hill Tracts ...	...	...	...	16th November	"

4. The total receipts of all the districts in the Division during the period under report including balances on 1st October 1886 and the sums under the heads, advances and deposits, amounted to Rs. 2,72,843-4-1:—

					Rs.	A.	P.
Chittagong ...	...	...	...	...	83,574	8	5
Noakholly ...	...	...	...	...	72,169	1	4
Tipperah ...	...	...	...	...	1,00,311	1	9
Chittagong Hill Tracts ...	...	...	...	...	16,788		7
Total ...	...	...	...	...	2,72,843	4	1

The net disbursement of the year under report, including advances and deposits, amounted to Rs. 1,50,576-4-11, viz.:—

					Rs.	A.	P.
Chittagong ...	...	...	...	...	88,275	0	8
Noakholly ...	...	...	...	...	28,383	2	4
Tipperah ...	...	...	...	...	29,126	11	11
Chittagong Hill Tracts ...	...	...	...	...	4,791	6	0
Total ...	...	...	...	...	1,50,576	4	11

The available balances on 31st March 1887 are as follows:—

					Rs.	A.	P.
Chittagong ...	...	...	...	...	4,700	8	3
Noakholly ...	...	...	...	...	43,785	15	0
Tipperah ...	...	...	...	...	71,184	5	10
Chittagong Hill Tracts ...	...	...	...	...	11,997	2	7

5. The number of meetings held at Noakholly and Chittagong was sufficient, but two meetings in six months is a very small number for Tipperah.

The Chairman has been asked to explain why more were not held.

Among the head-quarters, the attendance was best in Noakholly. The Local Boards except that at Fenny, do not seem to have taken much interest in the matter, the number of members who attended no meeting being in all other cases large. In the case of the Tipperah Local Boards, there was little scope for regular attendance, only one meeting having been held at each place.

6. The account of the Chittagong Fund shows that there was not actually a debit balance in the Treasury, and I understand that large payments were made to credit of the fund immediately after the close of the quarter. The balance is, however, less than a fair working one ought to be.

7. The works call for little remark. In Chittagong repairs absorb nearly the whole funds. The office building also made some progress, and it is now nearly finished.

8. The Inspector of Local Works has since seen and pronounced on the work on the bridging of the Mudafargunge-Hajigunge road. He considers it bad, but does not entirely reject it.

The boon of rapid communication with Calcutta has been obtained at a cheap rate in this district, and the benefit of more rapid postal transit is shared by the other districts of the Division.

*Divisional annual accounts of Income and Expenditure on account of the District Road Fund of the Chittagong Division for the cess half-year ending 31st March 1887.*

## DISTRICT ROAD FUND.

NOTIFICATION No. 281.

*The 14th August 1888.*

THE subjoined annual accounts and reports of the Road Cess Committee of the district of Darjeeling for the year 1887-88, together with the remarks thereon of the Commissioner of the Rajshahye Division, are published for general information.

W. B. BERTIE,

*Under-Secy. to the Govt. of Bengal, P. W. Dept.*

No. 55, dated Darjeeling, the 29th May 1888.

From—The Deputy Commissioner and Chairman, District Road Cess Committee, Darjeeling,

To—The Commissioner of the Rajshahye Division.

UNDER section 179 of Act IX (B.C.) of 1880, I have the honour to submit, in duplicate, the following report on the administration of the Road Fund of this district during the year ending 31st March 1888, together with the detailed accounts of income and expenditure for that period, duly examined by the Sub-Committee of audit and passed by the District Road Committee at a special meeting held on the 29th May 1888.

2. The balance at credit of the fund on 1st April 1887 was Rs. 22,656-8-6, and the receipts under the several heads during the year under review made up a total of Rs. 34,663-2-4. The total expenditure during that period was Rs. 49,807-14-1 leaving a balance of Rs. 8,011-12-9 available for expenditure during the current year.

3. *Assessment and collections.*—During the year under report, out of the current demand of Rs. 18,678, Rs. 708 were realised in advance during the previous year, and Rs. 17,907 collected during the year, leaving only Rs. 63 unrealised at the close of the year. A further sum of Rs. 45 on account of arrears outstanding on the 31st March 1887, plus Rs. 855 collected in advance for following year, made up a total collection of Rs. 18,807, but the total sum credited in the Road Fund Account during the year of report is Rs. 20,656-12-8, the excess being due to the adjustment of an error which crept into the Treasury accounts as noticed in paragraph 3 of this office letter No. 128, dated 27th May 1887.

4. *Working of the Committee.*—The number of meetings of the District Committee held during the year under review was five. The average attendance was 2 out of 8 officials and 6 out of 18 non-official members. The Terai Branch Committee met six times during the above period, and the average attendance, as reported by the Vice-Chairman, was 2 out of 3 officials and 4 out of 13 non-official members.

5. *List of roads.*—Some slight alterations were made in the list of district roads mentioned in the previous report. The roads formerly distinguished by numbers 9, 29 and 32 were recommended to be considered as one road, under the name of "Lamidhura-Rishihat-Chongtong" road, in the resolution of the District Committee's meeting held on 27th May 1887.

6. *Public Works—Original.*—A sum of Rs. 18,616-3 was spent in original works. These were all budgetted for. The construction of the two suspension bridges over the Little Rungeet and Kohel rivers at Poolbazar and Kohel, sanctioned by the Government of Bengal, was completed during the year. Owing to unusually heavy rain in August, the bridge at the former site was carried away by the rush of water. Proposals for bridging this stream at the old site are under contemplation, and plans for a bridge of a larger span have been called for from the District Engineer. When the bridge at Kohel was finished, it was found that the estimated cost, Rs. 5,302, was exceeded by Rs. 1,187, for which a revised estimate has been submitted for the sanction of Government. The construction of the suspension bridge over the Rongbang river at Sunmah is all but complete, and it is expected the work will be finished before the end of the current month. The project for a similar bridge over the Balasun river at Namsu has been returned by the Government of Bengal owing to paucity of funds. A temporary bridge has, however, been put up over this river at a cost of Rs. 1,769-12-3 for the convenience of the public.

*Repairs.*—Rupees 5,462-5-8 were spent on hill roads and Rs. 6,867-14-8 on Terai roads, making a total expenditure of Rs. 12,330-4-4. Besides the above, a further sum of Rs. 1,930-5-8 was spent on village roads in the Terai, and Rs. 165-13 in repairing two small bridges. The repairs to hill roads were chiefly carried out by the planter members of the Committee, who took a lively interest in the work as in former years. The village and other district roads in the Terai were maintained and kept up under the supervision of the Vice-Chairman of the Terai Branch Committee.

7. *Arboriculture.*—As reported last year, there was no expenditure under this head, the local fund known as the Darjeeling Improvement Fund undertaking the whole of this branch.

8. *Working of the Cess Act.*—The cess was levied at the maximum rate, and the general results of the year may be considered satisfactory, the percentage of the collections having amounted to 99·6 per cent. on the demands.

10. *Inspection of accounts.*—The accounts of the Committee's office were inspected by the Local Auditor in November last. The irregularities in the system of keeping accounts noticed by the auditor were trivial, and have been remedied.

A. WERNICKE,  
Vice-Chairman.

*Explanatory Memorandum accompanying the Annual Account of 1887-88.***RECEIPTS.**

- (a). The small increase in the collection of cess on lands, over and above the probable budget estimate, calls for no explanation.
- (b). The increase is due to the excess amount having been transferred and adjusted from Public Works cess to which it was added by a mistake in the accounts of the Treasury Department, vide paragraph 3 of this office No. 128 of 27th May 1887.

**EXPENDITURE.***Original.*

- (c). The construction of the village road from Deamoni to Singhjhora subsequently considered unnecessary, and the grant under this head was transferred to other repair works.

*Repairs.*

(*c*), (*e*), (*f*) and (*g*). The excess expenditure on these roads has been sanctioned by the Committee, to be met from savings under other heads.

*Miscellaneous and Suspense Account.*

(*h*). This correction was made after much correspondence, under the instruction of the Accountant-General, Bengal, contained in his letter No. 915LF, dated 23rd January 1888, by crediting the amount to "Miscellaneous" and debiting it to "Advances."

A. WERNICKE,

NOTIFICATION No. 303.

The 28th August 1888.

THE subjoined Accounts and Reports of the Road Cess Committees of the districts of Gaya, Shahabad, Durbhunga, Mozufferpore, Sarun, and Champaran for the half-year ending 31st March 1887, together with the remarks thereon of the Commissioner of the Patna Division, are published for general information.

W. CONNAN,  
Offg. Under-Secretary to the Govt. of Bengal,  
P. W. Dept.

No. 1068, dated Gaya, the 17th January 1888.

From—The Chairman, District Board, Gaya,  
To—The Commissioner of the Patna Division.

ACCORDING to your circular memorandum No. 133 G, dated the 13th April 1887, I have the honour to submit herewith in duplicate a detailed account of the receipts and expenditure of the Gaya District Road Funds for the six months, from the 1st October 1886 to 31st March 1887, together with the following brief reports on the works of local improvements that were undertaken during the period.

2. *Half-yearly Account.*—The accounts now submitted have not been audited by the standing Sub-Committee of Audit, as the later body ceased to exist from the 24th of October last. It was, however, laid before a special meeting of the District Board, held on the 6th instant, and passed by the members who were present at the meeting.

3. *Inspection of Offices.*—Besides the inspection by the standing Sub-Committee of Audit, the offices of the Committee and the District Engineer were inspected by the local auditor on the 11th March 1887. His report was on the whole satisfactory.

4. *Working of the District and Branch Committee.*—During the half-year under report three meetings were held by the Sudder Committee, at each of which there was a quorum. The members took interest in all matters brought before them for discussion. There were three Branch Committees: one at Nowada, one at Jehanabad, and the one at Aurungabad. \* \* \*

5. *Working of the standing Sub-Committee of Audit.*—The Sub-Committee of Audit held monthly meetings to audit accounts, in accordance with the orders of the Government, previous to their submission to the Accountant-General, and the result of audit was satisfactory.

6. *Collection and Assessment.*—The total demand, collection of cesses, and assessment for the year will appear from a separate detailed report on the subject, which was submitted by the Deputy Collector in charge of the Road Cess Collection Department (*vide* his No. 21 R.C. of 22nd July 1887.)

7. *Principal and Important Original Works.*—In October 1886 a portion of the Phalgu Bridge was destroyed by a high flood, and it was necessary to have the bridge repaired and lengthened. Damage was caused to other important roads in the district by the same flood, which has been partly rectified. Culverts were also built on some of the roads to allow water-way.

8. *Repair Works.*—All the existing roads, both metalled and kutchha, were repaired.

9. *Village Roads.*—The repairs were done by the department. No local influential person undertook the execution of repairs of such roads.

10. *Condition of the Roads in the District.*—All the roads are reported by the District Engineer to be in fair order.

11. *Arboriculture.*—All the existing trees on the road side were kept up on the same scale as in the previous year.

12. *Establishment.*—Committee's staff has worked well.

*Public Works.*—The establishment worked satisfactorily.
